**Reviews**

**Danika** ★★★★★  
I've been offered so much support and so many resources whilst being in Korea. I found this most beneficial because it makes the move to a new country less scary. It's refreshing to know that I can send any of the team a message and they will be happy to help.

**Nawwal** ★★★★★  
Many of the contacts I had with the placement team had actually lived in South Korea so their insight was so valuable! They were able to give me firsthand insight into what life in Korea would be like and what to expect during the process.

**Nianth** ★★★★★  
Just a thank you for how helpful you and the placement team were in the months leading up to my departure to Korea and for checking in to see how things are going with me while I'm here.

I wasn't sure if I wanted to stay for a whole year in one place but now I am wondering if I can leave after just 12 months. I have a great group of friends and love my routine here. The kids are incredible and I feel proud of how much they've learned. Korean culture is gentle and the people are so nice here, I really feel at home. Thank you!
