Interview Questions

Teachers' Perspectives on Online English Language Teaching

Do you teach online in ELT classrooms?

Which online teaching platform do you use to teach the English language? (LMS, Google Meet, Zoom, MS Teams, etc.)

What problems do you face while teaching the English language online in the COVID-19 era?

How do you manage time in the online teaching system?

How do you handle distractions and interruptions from family members while teaching online from home, if any?

How do you assess a learner's learning and improvement in the online teaching system?

In what ways the shift in the teaching system (face-to-face to online) has affected you personally?

Has this online shift affected you professionally? If yes, how?

Do you feel the need for training and workshops for teaching online more efficiently?

Have you found any benefits of pandemic-induced online teaching?

What do you think can be changed in this online language teaching system for improvement?

What are the future implications for online English language teaching?
